Hiring Manager

Microsoft Corporation

Subject: Cover Letter for Microsoft Engage Internship

Dear Hiring Manager,

I am excited to apply for the Microsoft Engage Internship program. As a second-year Computer Science Engineering student at Guru Gobind Singh Indraprastha University with a 9.4 CGPA, I have developed a strong foundation in full-stack development, data structures, and scalable systems design. My passion for solving real-world problems using technology, coupled with my hands-on project experience, aligns well with the objectives of this internship program.

One of my notable projects, **SmartMart**, is a full-stack e-commerce platform built using the MERN stack. It leverages MongoDB and Redis for optimized caching, reducing query latency by 30%. I implemented Stripe integration to ensure a seamless checkout process, achieving a 90% transaction success rate, while an admin dashboard provided real-time sales analytics. Similarly, in **TradeX**, a trading dashboard, I utilized RESTful APIs and Chart.js to visualize real-time market trends, increasing user engagement by 20%. Both projects have honed my ability to design robust and user-centric solutions.

Beyond technical expertise, I am adept at collaborating in fast-paced environments. My achievements, including being a finalist in Ideathon'24 and solving 300+ DSA problems, showcase my dedication to continuous learning and problem-solving.

I am enthusiastic about contributing to Microsoft's mission of empowering individuals and organizations through technology. Joining the Engage Internship would provide an incredible opportunity to learn from and collaborate with some of the brightest minds in the industry.

Thank you for considering my application. I look forward to the possibility of contributing to Microsoft while growing as a developer. I am available for an interview at your earliest convenience and can be reached at +91 9625770491 or prabhjeetsandhu010@gmail.com.

Sincerely,

Prabhjeet Singh Sandhu
